

Mounting & Laminating *Concept*

MOUNTING FILM

Concept[®] mounting and laminating products are pressure sensitive adhesive-coated films for use with large format images for indoor or outdoor displays. Application for these products include photographic prints and transparencies, inkjet, electrostatic and screen printed images for exhibit and display graphics.

Concept[®] mounting products are double-coated films designed to mount images to foam boards and clear substrates for front lit or back lit displays.

Concept[®] laminating films are clear adhesive coated films designed to protect and enhance images. The films are available in a variety of finishes to provide the desired look. These laminates also help protect the images from UV exposure, moisture and handling while providing a surface that can be wiped clean.

MOUNTING FILMS

	Part No.	Roll Size	Roll Price	Price Per Square Foot
107 OPAQUE WHITE PRINT MOUNTING FILMS				
<i>Concept</i> [®] 107 Mounting Film is 1.5 mil white opaque polypropylene film coated both sides with a specially formulated permanent acrylic adhesive that is protected with a 76# paper liner.	107-31	31" x 150'	190.00	.49
	107-38	38" x 150'	251.75	.53
	107-51	51" x 150'	299.00	.47
	107-514	51" x 400'	748.00	.44
	107-54	54" x 150'	317.25	.47
	107-61	61" x 150'	337.50	.45
112 CLEAR PRINT MOUNTING FILMS				
<i>Concept</i> [®] 112 Mounting Film is 0.5 mil clear polyester film coated both sides with a specially formulated high tack permanent adhesive that is protected with a 76# paper liner.	112-38	38" x 150'	318.25	.67
	112-51	51" x 150'	331.50	.52
	112-514	51" x 400'	884.00	.52
	112-54	54" x 150'	351.00	.52
106 TRANSPARENCY MOUNTING FILMS				
<i>Concept</i> [®] 106 Transparency Mounting Film is designed to mount backlit transparencies to Plexiglas [®] or other clear substrates in light box applications. The product also provides distortion-free face mounting of prints to these same clear substrates. Transparency Mounting Film is constructed with optically clear polyester that is coated on both sides with an optically clear adhesive and protected by two clear polyester liners. The product also provides images with valuable UV protection.	106-31	31" x 150'	317.75	.82
	106-38	38" x 150'	441.75	.93
	106-51	51" x 150'	542.00	.85
	106-514	51" x 400'	1394.00	.82
	106-54	54" x 150'	567.00	.84
113 CLEAR REMOVABLE PRINT MOUNT				
<i>Concept</i> [®] 113 Clear Print Mount is 0.5 mil clear polyester mounting film with a permanent adhesive on 1 side and a removable adhesive on the other side. The backing sheet is on a 1.2 mil clear polyester liner.	113-38	38" x 150"	337.25	.71
	113-51	51" x 150'	350.65	.55
	113-514	54" x 400"	935.00	.55
	113-54	54" x 150"	371.25	.55
114 CLEAR REMOVABLE PRINT MOUNT				
<i>Concept</i> [®] 114 Clear Removable Print Mount is a clear polyester mounting film with a permanent adhesive on 1 side and a removable adhesive on the other side. The backing sheet is on a 76# liner.	114-38	38" x 150'	331.90	.70
	114-51	51" x 150'	347.45	.545
	114-514	54" x 400'	918.00	.54
	114-54	54" x 150"	367.85	.545

MACtac® Performance Graphics

MACTAC OVERLAMINATES

PERMACOLOR® Digital PS Overlamines

LF6500 Series is a family of clear pressure sensitive adhesive coated films that are available in a variety of surface finishes. These films are specifically designed to be laminated to digital images (ink jet, electrostatic and thermal) and will also work well on photographic prints and transparencies. The LF6500 products protect the images from abrasion, moisture, UV light and other potentially damaging climates. The products can be used for indoor or outdoor applications. All LF6500 products have a white paper liner that is removed prior to lamination.

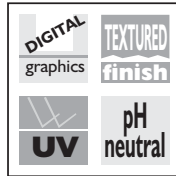

Location: Alpha Romeo Display
Material: Digital PS Overlamines

Tips:

Cleaning instructions for clear PS overlamines:

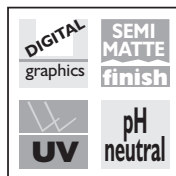

- 1) Use a clean, soft, lint-free cloth.
- 2) Use standard glass cleaner (Windex™, Glass Plus™, etc.)
- 3) Spray the cleaner onto the cloth, NOT onto the image. Do not over saturate the cloth.
- 4) Wipe down the image with the wet cloth.
- 5) Dry with a clean, soft, dry cloth.
- 6) If the edges of the image are not sealed, take care not to introduce cleaner to the adhesive. Over time, edge lifting will occur (MACTac recommends you always seal the edges of a graphic during the finishing process).

TEXTURED

LF6530 is a 4.3-mil textured vinyl film coated on one side with a clear acrylic pressure sensitive adhesive. Recommended for indoor or outdoor applications, it also helps reduce color fade caused by UV light exposure.

- UV inhibitors to reduce color fade.
- Textured finish protects from abrasions. **LF6537 - 51.2" x 164 feet - 370.00**

SEMI-MATTE

LF6540 is a 2.9-mil semi-matte vinyl film coated on one side with a clear acrylic pressure sensitive adhesive. Recommended for indoor or outdoor applications, it also helps reduce color fade caused by UV light exposure.

- UV inhibitors to reduce color fade.
- Semi-matte finish reduces glare. **LF6548 - 55.1" x 164 feet - 379.00**

MATTE

LF6550 is a 2.9-mil matte vinyl film coated on one side with a clear acrylic pressure sensitive adhesive. Recommended for indoor or outdoor applications, it also helps reduce color fade caused by UV light exposure.

- UV inhibitors to reduce color fade.
- Matte finish reduces glare. **LF6558 - 55.1" x 164 feet - 379.00**

GLOSS

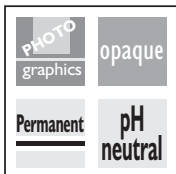

LF6560 is a 2.9-mil high gloss vinyl film coated on one side with a clear acrylic pressure sensitive adhesive. Recommended for indoor or outdoor applications, it also helps reduce color fade caused by UV light exposure.

- UV inhibitors to reduce color fade.
- High gloss finish enhances colors for vibrant image. **LF6568 - 55.1" x 164 feet - 379.00**

MOUNTING

PERMACOLOR® High-Performance Mounting Films

OPAQUE PLASTIC

IP5000 Series consists of a thin, opaque plastic film coated on both sides with an acrylic pressure sensitive adhesive. Moisture stable, polycoated Kraft liner protects the adhesive.

Designed for quick adhesion to a variety of mounting surfaces. Single release liner permits easy lamination and eliminates the need to remove a second liner.

Features and Benefits:

- One paper release liner allows for fast lamination.

Typical Uses:

- Mounting of images to black gator, Sintra and other difficult substrates.

Stock No.	Roll Width & Length	Price
IP5002	51" x 150 feet	443.00
IP5013	43" x 150 feet	385.00
IP5007	37" x 150 feet	326.00
IP5003	31" x 150 feet	282.00
IP5015	25" x 150 feet	226.00
IP5004	21" x 150 feet	195.00

Location: Pelle Island Museum, Cleveland, OH

Material: Permacolor® IP5000, IP7300

MACTac's pressure sensitive mounting films are intended for "cold roll lamination" (40°-104°F / 4°-40°C).

The addition of heat while simultaneous mounting with thermal overlamines may result in curl or have other detrimental effects on the finished product.

54" X 50 YARDS

ROLLS	CUT PIECES
300.00	7.00 per yd.
567.00	12.95 per yd.

This film is ideally used in adhering name-plates, plastic to plastic and posters to most smooth surfaces. Also used to mount back lit transparencies to plexiglas or other clear substrates in light box applications.

Construction: Double coated polyester with an optically clear permanent acrylic adhesive which is sandwiched between two 1.5 mil clear polyester film liners.
