

# ANTI-GRAFFITI LAMINATE FILM

## PRINT SHIELD ANTI-GRAFFITI

Seal Brand has introduced Print Shield Anti-Graffiti.

This product safeguards prints which may become vulnerable to graffiti by making them washable and resistant to a very large number of detergents and solvents.

Print Shield consists of a high performance PCTFE film which protects images printed on UV or solvent inkjet printers from a wide variety of stains and chemicals such as paint, permanent marker, and acrylics.

It also allows easy removal of most other stains and chemicals that may find their way onto the graphic.

Key benefits include maintaining a long lasting professional look while being easy to clean with common economical cleaners.

The PCTFE film measures only 1 mil and is completely stain, flame, and chemical resistant, as well as plasticizer and stabilizer free.

Print Shield offers the highest moisture barrier of any clear flexible film adding to the features that give it true protection against graffiti; unlike anything else in today's digital print and finishing market.

Applications include rigid indoor and outdoor displays, outdoor signage, wall murals, point of purchase/tradeshows displays, window graphics, and backlit signs.

Designed to be used with inks that have long light-fastness, it is an extremely durable film with an estimated outdoor life of more than seven years (with non-immersed vertical application.)

## GRAFFITI RESISTANT CLEARS

### Applications

These 1 Shot products are excellent for a wide range of applications including:

- municipalities
- retail stores, malls
- school and universities
- municipal and amusement parks
- newsstands, building offices

### Graffiti Resistant Clears

1 SHOT'S new graffiti resistant clears deliver excellent protection and graffiti removal characteristics for painted substrates. These coatings, when applied of a wide range of paint and graphic applications, allow for removal of most graffiti. Significant cost savings can be obtained by avoiding the need to repaint surfaces that have been damaged by graffiti.

1 SHOT'S graffiti resistant clear products provide a simple solution against graffiti damaging attacks. These coatings simplify maintenance practices and reduce total maintenance costs. 1 Shot graffiti resistant clears can help return most painted surfaces or graphic finishes to their original or near original appearance.

### Product Application

#### 1 SHOT'S GRAFFITI RESISTANT CLEAR

is an acrylic urethane supplied as a 2 component (Part A & B) product in either a matte or a gloss formulation. The coating can be applied by brush, roller or spray. Pot life is 2-4 hours depending on the ambient conditions where it is being applied. The coating will be dry-to-the-touch within 1-2 hours, depending on film thickness and ambient conditions. For best results graffiti removal should be performed with MEK (methyl ethyl ketone) or MIBK (methyl isobutyl ketone). •
