

Adhesives

3M SUPER 77
Multi-purpose spray adhesive with high coverage and high tack. Use for bonding light-weight materials, felt, and carpeting to plastics, foam, painted and unpainted wood, glass, metals, much more.
467 g (16.5 oz) 18.75

3M PHOTO MOUNT
A strong, clear, non-staining professional grade adhesive. Apply to one or both surfaces. Bond is immediate, very strong and permanent.
290 g (10.25 oz) 21.50

3M SPRAY MOUNT
With clog-free nozzle! Reformulated to perform as well as the original, minus the clogging that is sometimes a problem. Bonds practically any lightweight material instantly, yet allows work to be lifted and repositioned. Requires only one surface application and bonds do not yellow, get brittle or flaky.
290 g (10.25 oz) 20.50

SPRAYWAY 66 SPRAY ADHESIVE
Tacks-down T-shirts and other fabrics to the pallet. Will not transfer to the fabric. Easily removed with Sprayway C-60 Solvent Cleaner. For lay-outs, display assembly, labelling, etc. Quick tac. Non wrinkling. Water resistant. Repositionable.
11 oz 7.95

MISTY SPRAY ADHESIVE
WEB#309-20
For use on uneven or porous surfaces for both temporary or permanent bonds. For plastics, wood, cork, paper, leather, rubber, and more.
12 oz 7.95

SPRAYWAY 83 WEB TYPE SPRAY ADHESIVE
A quick drying translucent tack adhesive that provides temporary holding of textile fabrics to the printing pallet. Printing can follow immediately after application. After printing, fabrics strip quickly without staining.
15 oz 7.65

WELD • ON® ADHESIVES AND CEMENTS

■ ACRYLICS

WELD • ON® #3

Non-flammable, water-thin, very fast-setting solvent cement for bonding acrylics. Also bonds styrene, butyrate, PETG, and polycarbonate to themselves. Will not bond to cross linked acrylics.
Pint - 16.80

WELD • ON® #4

Non-flammable, water-thin, moderately fast-setting solvent cement for bonding acrylics. Also bonds styrene, butyrate, PETG, and polycarbonate to themselves. Will not bond to cross linked acrylics.
Pint - 16.80 Gallon - 99.00

WELD • ON® #16

Fast-setting, medium bodied, high strength acrylic cement. Also bonds rigid PVC, ABS, styrene, butyrate, polycarbonate to themselves and each other, as well as other plastics and porous surfaces.
5oz. - 8.50 Pint - 19.95

■ VINYL

WELD • ON® #66

Thin-bodied, fast-curing, versatile contact cement for use on flexible vinyl, leather, urethane, wood, and canvas.
Pint. - 19.90

■ POLYCARBONATE

WELD • ON® #58

VOC-free, two part, fast-setting, reactive, urethane-based adhesive for bonding polycarbonate, butyrate, ABS, and PETG to themselves and each other. Excellent UV light resistance.
50 mL - 33.70 (requires dispenser)

■ STRUCTURAL - METALS & PLASTICS

WELD • ON® #45

Two-part, high strength, reactive structural adhesive for bonding aluminum, galvanized steel, brass, copper, ABS, PVC, CPVC, PETG, polycarbonate and foam board to themselves and each other.

50 ml Cartridge 24.50
50 ml Dispenser 89.00
50 ml Straight mixing tip 1.65

The Toughest Glue on Planet Earth™

2oz.	7.25
4oz.	10.75
8oz.	18.95
18oz	28.95
36oz.	44.95

- Indoor and Outdoor use.
- Bonds Wood, Stone, Metal, Ceramics, Plastics & More
- 100% Waterproof.

SCREEN AND FRAME MAKING AIDS

KIWOBOND Frame Adhesives

KIWOBOND 1000 HMT

A fast drying two-component adhesive for adhering mesh to wood, aluminum, and metal frames. 1000 HMT is the choice for high mesh tension and fast drying requirements. The low viscosity aids the application on very fine mesh counts, ideally above 305 tpi (120 tpcm). Not recommended for mesh counts below 156 tpi (60 tpcm). Technical sheet available.

750 Gram Set	43.75
4.25 kg Set	199.55

KIWOBOND 930

A fast drying two-component adhesive for adhering mesh to wood, aluminum, and metal frames. Its medium viscosity enables easy application even on the coarsest mesh counts. Recommended for mesh counts below 260 tpi (100 tpcm) Technical Sheet available.

900 Gram Set	41.95
--------------	-------

FOLDING MAGNIFIER For all Meshes

Fine quality magnifier. Precision ground polished lens magnifies fabric threads 12x.

Folds up for easy storage.

1" - 24.95

AUTOTYPE EXPOSURE CALCULATOR

An all-in-one test positive that helps you determine the best exposure time. The calculator's series of incremental gray neutral filters provides 5 exposure values with just one test exposure. Select one of them for the best stencil thickness, colour/hardness and definition. Features include a 65 line screen ruling and halftone dots in 10, 50 and 90% areas. Also the edge definition/resolution targets have a break in them and very fine type to assist your interpretation. A complete instruction guide is provided with each calculator.

SOLVENT RESISTANT Plastic Tape

Durable, white polyethylene reinforced cloth tape is pressure sensitive...has tremendous tack. Perfect for sealing off inside of frames, protecting edges and guides, etc. Molds into all crevices and corners and is simply removed. Tape is 2" or 3" wide and comes in 60 yard rolls.

2" x 60 yd. - 22.50	3" x 60 yd. - 30.50
---------------------	---------------------

FRAME TAPES

CLOTH STAPLE TAPE

To Protect Fabric and Strip Staples.

Place tape over mesh and staple through tape. Prevents damage to the finest screen fabrics. Removal of staples becomes easier. Extra strong synthetic cloth tape.

1/2" x 325 ft. - 18.00

ULANO GEL 23

An abrasive degreaser "gel" which mechanically abrades and degreases nylon and polyester in one operation providing optimum adhesion for ULANO Indirect System stencils, improved water-retention for the adhering of Ulano CDF (Capillary Direct-Films) and an emulsion-receptive surface for all Ulano emulsions.

Instructions: Use only on Synthetic Fabrics! Do not use on Silk!

Quart - 22.00	Gallon - 49.00
---------------	----------------

FABRIC PREP

2 ULANO MICROGRIT

A powder for the mechanical treatment of nylon or polyester screen fabric. Hard enough to abrade synthetics for the optimum adhesion of transfer stencils; fine enough (18-20 microns) to pass through even the smallest mesh openings. For improved results with all ULANO Stencil Systems.

1/2 lb. Shaker Tin	28.50
3 lb. Container	93.00

UNIVERSAL MESH-PREP

A non-toxic fluid for degreasing and dramatically improving the wetting characteristics of all mesh types. UNIVERSAL MESH-PREP is fast and easy to apply and harmless to the mesh. Developed for capillary films, but suitable for all stencil systems.

UNIVERSAL MESH-PREP CONTAINERS

1 Litre (1.06 qt.) Containers	16.95
5 Litre (1.32 gal.) Containers	43.00

ULANO #3 SCREEN DEGREASER LIQUID

A degreaser solution for all fabrics, new or used, before stencil making - and as a degreaser after ink removal to speed the action of the stencil remover. Ready to use - no mixing. Foam action cleaning. Degreases effectively in hard water. Rinses clean with hot or cold water. Non-caustic.

Quart	14.35
Gallon	36.50
