MACtac® REFLECTIVE

Features and uses:

- Easy to cut and weed.
- Vehicle markings.
- Very flexible and can be applied over rivets and corrugated surfaces.

5700 is a flexible reflective film (Engineering Grade) providing wide-angle reflectivity of incident light and giving excellent night and day visibility. The face is made with a layer of microscopic glass beads of a high optical quality. These are embedded into a colored film, which then act as a lens. A metallized back provides the mirrored surface for reflection. The film is coated with a white, high strength, permanent, acrylic adhesive. A 92# white polycoated paper liner offers stability and excellent layflat qualities.

- COLOURS:** 5729 White 5759 Red
5789 Black 5739-0 Light Blue
5709 Yellow 5739-1 Dark Blue
5701 Orange 5749 Green
