## MACmark® High-Performance Marking Films

### 2 Mil Cast-Premium

**Typical Uses:**

- Long-term outdoor advertising
- Fleet marking
- Window graphics
- Decorative panels
- Logos and signs

**Color Card Available**

**6600 Cast Vinyl** is a premium MACTac film designed for applications over complex curves like rivets, corrugations and other irregular surfaces. The face is 2.0-mil cadmium-free cast vinyl, durable yet highly flexible for conformability over difficult surfaces. With a high gloss finish, this product is designed for superior cutting and weedability. It is coated with a high-performance permanent, clear solvent acrylic adhesive protected with a 78# bleached white Kraft liner for stability and layflat.

PRICE PER YARD
