Brush Conditioner & Cleaner #4004

Created specifically for cleaning and storing brushes which have been used with oil based paints.

Quarts: \$15.25

Brush Cleaning and Care

Always clean out a brush thoroughly after use. The general rule for cleaning: the solvent or thinner that goes with the paint being used, becomes the cleaning agent. If the paint or medium you are using is compatible with mineral spirits, it is suggested using this as a cleaning agent.

When brush is cleaned, carefully wipe the hair without pulling. Storing the brush greased with light oil prevents any residual paint from drying on the brush.

Do not allow cleaning agent to get into the glued part of the brush, some cleaning agents can attack the glue and cause the hair to loosen.

Scharff BRUSHES

Scharff Series 2000 Round Grey-Line Quills have graduated hair length and are all lightweight for good control. They are excellent for lettering on smooth, glassy surfaces; with oils, Japans, synthetics and other like colours. The Grey Squirrel hair is attached with non-corrosive brass wire and in plastic ferrules.

Kafka

PINSTRIPING BRUSHES

Kafka Signature Series Scrollers series 1660

[click here to see video](#)

All Kafka signature series pinstriping brushes can turn corners without “flare-out” and without the user “rolling the brush”— just lift and work the tip for designs that usually take years to master. Works equally well with urethanes and oil-based enamels

Size 0 — 15.75 ea. The size 0 brush is the smallest available. It’s capable of turning very tight corners and very fine design work while still maintaining great line consistency due to the nature of design and combination of synthetic and natural hair.

Size 1 — 15.75 ea. The size 1 is slightly larger than the 0 and will perform the same as the 0 with a slightly heavier line. As with all the Kafka brushes, they perform with oil-based enamels as well as urethane stripping paint.

Size 3 — 15.75 ea. The size 3 will work in a wide variety of applications from scroll striping to shorter, long-line designs. This brush will give the user greater control in all applications and flatten the learning curve for novice strippers. The size 3 is also the most used favorite of its designer, Steve Kafka.

Size 5 — 15.95 ea. The size 5, which is slightly larger than the size 3, holds more paint and will accomplish heavier designs with ease. Depending on pressure, the line thickness can reach 1/4” and fine lines to 1/16” in the other direction. This brush is a favorite for outlining larger flame layouts, cars, trucks, and semi trucks.

Size 6 — 16.25 ea. The size 6 will give you the heavier lines needed in many instances, but still can deliver delicate design work. It’s used for initial layouts followed by smaller sizes for more delicate additions in beautiful combinations

Kafka Signature Series Longliners

This series of longliner brushes was designed to run consistent, long lines with greater line quality and control. The handles were left long so they may be trimmed to fit inside the web of your hand, or to use as they are. The longliner series has received incredible accolades from all of the top long-line pinstripers

Size 5/0 — 17.95 ea. The 5/0 is the finest longliner brush available. It will lay pin lines for incredible distances with ease and beautiful line quality. It soon will become the standard for the fine line strippers everywhere.

Size 3/0 — 17.95 ea. The 3/0 will match any brush currently available for fine line work, but surpasses them all for durability, line quality, and control.

Size 00 — 17.95 ea. The 00 is probably favored for lines on most cars. Other brands of brushes include the size 00, but when you use our other sizes the reason for us making a variety becomes clear.

Size 0 — 18.25 ea. The size 0 brush performs all longliner functions as the size 1, just not as heavy. Synthetic and natural hairs are used for long life, line consistency, and control.

Size 1 — 18.55 ea. Size 1, the largest brush of this series, holds lots of paint and will do over a 1/4” (6.4 mm) line with ease. It will also do fine lines with less pressure perfectly

Kafka Design Series Short Stroke Brush

we have a shorter version of our number one seller, the #3 signature series scrolling brush. This will help the new pinstriper navigate intricate loops and scroll designs easily and flame outlines will be achieved with greater ease.

It has a gold plated ferrule, a dark stained natural wood handle, and the most successful hair combination. **One size only. - 16.95 ea.**

Sign Writer Bulletin Fitches and Cutters

LUCO

MACK

RETOUCH

LUCO SERIES #1640

SHORT-FAVOURITE
A standard short bristle fitch for clean accurate work on sheet metal, cardboard and other smooth surfaces.

1/2"	9.70
3/4"	12.95
1"	20.75

Angular Fitch Liner

SERIES 4090

• Finest 100% White Hog Bristle • Seamless Nickel Ferrules • Long Blue Varnished Handle

This angular fitch is good for awning work. Sign painters also find it easier to use an angular brush when working on a wall or upright surface. It is good for outdoor work (awnings, walls, bulletins and rough surfaces). This brush is not chiseled. There is no advantage to chisel an angular liner, since most sign painters want an even down stroke.
