

Knifeless is a tape that can be used to cut graphic film without using a knife.

The tape has a visible high strength filament (thread) in the middle that is used to do the cutting.

### Design Line Tape

3.5 mm (1/8" ) Width x 164 ft.

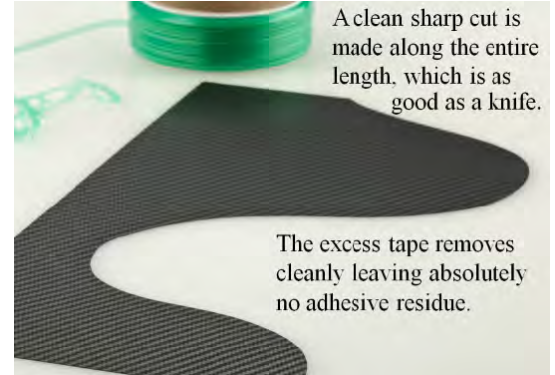

#### Knife Like Cuts

-Allows stretching, follows contours and turns easily in any direction-

Excellent for creating designs & stripes with no extra steps required to achieve a perfect cut

53.95 roll

A clean sharp cut is made along the entire length, which is as good as a knife.

The excess tape removes cleanly leaving absolutely no adhesive residue.

### Knifeless Finish Line Tape

3.5 mm (1/8" ) Width

For most wrap applications

Conformable around bumpers, door handles, mirrors, etc

Available in 50 Meter rolls (164 Feet)

53.95 roll

**A must have in any installer's kit, the Knifeless Tech System, alleviates the issues that novice and even expert installers dread; cutting on paint.**

**Knifeless Tape products are used in 3M's Advanced Installer Training Class**

### Knifeless Perf Line Tape
