

500 Series Intermediate High Gloss Vinyl

A 3.0 mil polished polymeric flexible calendered vinyl with 200-5000 permanent acrylic pressure sensitive adhesive laminated to a 78# clay coated liner.

Applications: This product is recommended for outdoor and indoor uses where a high quality marking film-requiring flexibility, durability and resistance to sunlight is required. These films can be used for architectural signage, commercial-retail signage, point-of-purchase graphics and decals.

Product Variations: - This material can be printed with high quality screen printing inks formulated for flexible vinyl. Consult your ink supplier before printing and test all ink prior to production.

Expected Lifetime Exterior Color Fade: - Up to 5 years under normal exposure conditions. Performance can vary depending on U.V. exposure.

diamond plate silver

hammered leaf gold

Our VinylEfx® Outdoor Durable Series, which provides up to three years of outdoor life, is comprised of a variety of cost-effective simulated metal, light-diffracting and 3-D patterns, designed for long-term outdoor signage. For demanding applications such as truck and boat graphics, the VinylEfx® Durable Series films provide a superior alternative to the expensive simulated gold-leaf films.

RTape VinylEfx® is exceptionally suited for general purpose signage applications and a cut above other "special effects" films thanks to a proprietary deep-embossing technology that provides a crisper three-dimensional appearance to each pattern. **Because the VinylEfx® is vinyl, not polyester, they require no top coating prior to printing! They print, cut, weed and handle just like intermediate vinyl.**

GlowEfx luminescent

RTape's VinylEfx Decorative Metal Flake vinyl film is an extruded rigid, metalized PVC with a permanent clear acrylic adhesive. RTape VinylEfx Decorative film is designed for digital printing and plotter cutting. It's distinctive eye-catching patterns and colors add pizzazz to any graphic. RTape Decorative VinylEfx® can be printed with any non water-based ink system, computer cut, steel rule die cut, thermal die cut, embossed and domed. VinylEfx Decorative Series is designed for interior use. Can be used in short-term outdoor (up to six months) depending on environment, but is not warranted. Exterior life can be extended with UV inhibiting lamination.

REFLECTIVE VINYL

MACtac® REFLECTIVE

REFLECTIVE

Features and uses:

- Easy to cut and weed.
- Vehicle markings.
- Very flexible and can be applied over rivets and corrugated surfaces.

5700 is a flexible reflective film (Engineering Grade) providing wide-angle reflectivity of incident light and giving excellent night and day visibility. The face is made with a layer of microscopic glass beads of a high optical quality. These are embedded into a colored film, which then act as a lens. A metallized back provides the mirrored surface for reflection. The film is coated with a **white, high strength, permanent, acrylic adhesive**. A 92# white polycoated paper liner offers stability and excellent layflat qualities.

COLOURS: 5729 White 5759 Red
5789 Black 5739-0 Light Blue
5709 Yellow 5739-1 Dark Blue
