Heavy Duty Models

A.W.T.'s Rack-It™ heavy-duty drying racks are the perfect choice for industrial drying applications. Built on a welded steel frame, these racks provide a safe and sturdy resting place for your substrates as they dry. Longer lasting than rubber, steel bumpers come standard on all of our heavy-duty racks and are welded to the outside of the shelf for maximum drying room. For smooth up/down operation, the individually adjustable shelf springs give you tension control over each shelf and all shelves feature a rust- and solvent-resistant, powder-coated finish to extend the life of the rack. Also available in heat resistant models for baking applications.

SCREEN-EZE™
Professional Tabletop Screen Printer

A.W.T.'s versatile Screen-Eze table top screen printing press is engineered for quality hand-printing. Suitable for short-run decals, labels, 3-D OEM parts, membrane switches, compact disks, binders, and ad specialties, this precision machine is loaded with performance features. Horizontal screen lift provides optimum ink control, while the lock-in head assures exact registration for multi-color jobs. Adjustable off-contact provides additional control over print quality and allows dimensional printing. Adjustable side frame clamps support screen frames to ensure registration repeatability. And the all-aluminum vacuum table means hand printing can deliver the same quality as a flatbed press.

Standard Features
- Horizontal screen lift with adjustable tension
- Eccentric roller bearings lock-in printing head
- Micro-registration system
- All-Aluminum vacuum bed
- Adjustable off-contact
- Vacuum table leveling system
- Side clamps for maximum screen frame support

Optional Features
- Oversized frame holders
- Disappearing registration guides
- Larger vacuum bed
